

DENT-GAS

PORTABLE OXYGEN

KIT #1

(OUR MOST POPULAR!)

\$265.00

Uses a leased "E" size oxygen tank available from your gas supplier.

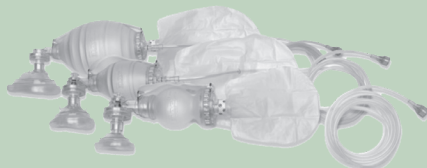

Includes:

- 0 to 15 litre per minute (lpm) flow regulator
- cylinder cart, disposable mask and tubing
- cylinder wrench

Leasing your tank makes it much easier to have the tank replaced or refilled. Most gas suppliers charge \$45.00 to \$50.00 a year for this annual lease and a full tank (refill) costs about \$25.00 to \$35.00.

Resuscitation Bag - Single Patient Use - Adult or Child \$65.00

Oxygen/Nitrous Oxide System Testing & Service

This is an annual service to test all components of the medical gases system.

Benefits of our annual system service:

- in accordance with RCDSO guidelines that indicate that all nitrous oxide systems be tested/serviced annually.
- assists in minimizing nitrous oxide exposure and gas loss through the identification and repair of leaks.
- helps avoid unexpected breakdowns.
- provides a safer environment for patients and staff.
- Testing of portable emergency oxygen units is included in the price of our annual service.

We provide complete documentation and certificate in accordance with RCDSO guidelines
